Dear American Legion Boys State Citizen,

Congratulations and welcome to American Legion Boys State! American Legion Boys State is among the most highly respected and selective educational programs of government instruction for U.S. high school students. I am confident that you will not be disappointed with your decision to participate in this outstanding citizenship education experience. It will influence life decisions in ways that you may not fully realize until years later.

As one of thousands of young men from throughout the nation selected to participate in American Legion Boys State each year, you will experience government in a practical sense. American Legion Boys State is a leadership action program; one that teaches government and its structure. It proves that government is just what you make it. You will find Boys State to be challenging and sometimes demanding, however, I'm certain you will undoubtedly also find it enjoyable and educational.

If this government ".... of the people, by the people, and for the people" is to remain strong, it requires the involvement of its citizens. The onus of preparing for that responsibility now rests squarely upon your shoulders and those of future generations. Since 1935 American Legion Boys State has been prominent in producing young men who, just like you, stepped up to become ready for accepting that responsibility. It is possible that a future mayor, governor, congressman, or even president, may be among those in your class of American Legion Boys State citizens. I make this statement because this program has historically been the springboard for many careers in local, state and federal public service. Regardless of the future career path you follow – politics, education, business, medicine, information technology or so forth - you will develop lasting bonds of friendship with fellow Boys State citizens that will extend well after the formal program has ended.

I wish to again extend my best wishes for an interest-provoking, exciting and personally rewarding 2021 American Legion Boys State experience.

# A Proud History

The youth movement known as Boys State was originally sponsored by The American Legion to counteract Pioneer Camps, which were being conducted in the United States by the Nazi Freedom Foundation. Pioneer Camps taught that - although the democratic form of government has served its purpose well - it was outdated and should be replaced by a fascist form of government. Legionnaires in Illinois decided to organize civic programs to teach youth the American way of life. They wanted to develop some type of educational program to give youth a better understanding of America's form of government and to instill in them ways to preserve the freedoms we have under the democratic way of life.

The Americanism Committee of The American Legion of Illinois obtained use of the State Fairgrounds for a week in June 1935. The Legion contacted the high school principals in their state and asked them to select junior class leaders to attend a new program to study the constitution and government of the State of Illinois. During that week delegates were asked to suggest a name for the new program. The name Boys State was suggested and unanimously adopted. After a thorough evaluation of a course curriculum The American Legion National Executive Committee approved and named the program The American Legion Boys State.

Other States followed Illinois and developed Boys State programs based on their respective constitutions and governmental structures. In 1939, The American Legion Department of Virginia with the cooperation of Virginia Polytechnic Institute organized the Old Dominion Boys State. In 1956, the name was changed to The American Legion Boys State of Virginia. It has been held during the month of June every year since 1939 with the exception of the war years of 1942-1945 and in 2020 due to the COVID-19 pandemic.

The Boys State program has been developed and refined on the assumption that youth can best learn by doing. The curriculum is patterned after actual mechanics of the Commonwealth and local governments in Virginia. Divided into 16 separate cities, the citizens elect mayors, delegates, senators, judges, and city officials to carry out the duties of each. They are divided into two political parties, and each party selects nominees for the offices of Governor, Lieutenant Governor, and Attorney General. Winning candidates create a replica government, which crafts and passes laws. Laws passed by the assembly and signed by the governor are presented to the assembled citizens during the last assembly before graduation. All graduates take with them an understanding of the democratic process and the way various offices of the Commonwealth of Virginia work.

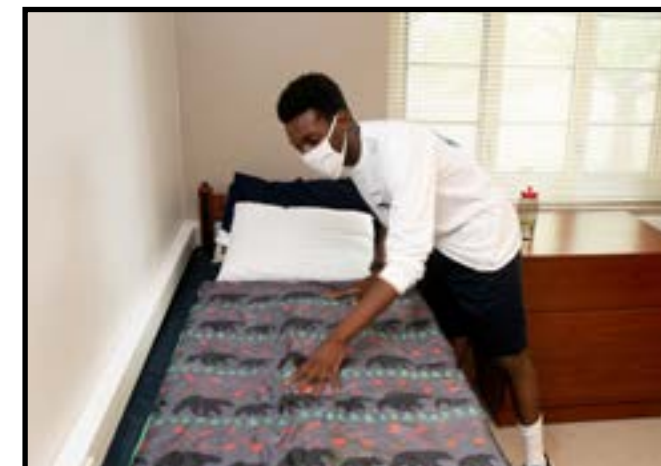

Boys State is not just concerned with the government process, but also with the well-rounded citizen. With that in mind, a complete program of activities is included. There are organized sports, band, chorus, a daily newspaper, and educational programs other than government. There is also a talent show, which gives delegates a chance to demonstrate their individual skills and talents.

Unfortunately, there are still other forms of governments, alien to the democratic ideals, opposed to the American way of life. The American Legion continues to sponsor Boys State programs to help young citizens better understand the operations of the American democratic form of government and to safeguard those fundamental principles.
